### **Elbit Systems of America's mobile howitzer selected by U.S. Army for shoot-off evaluation**

**FORT WORTH, TEXAS DEC. 17, 2020** – Elbit Systems of America's Autonomous Truck Mounted Ordnance System (ATMOS) Iron Sabre is a mobile howitzer selected to participate in the United States Army's 155mm Mobile Howitzer Shoot-Off Evaluation. The event, which will occur during the first quarter of 2021, provides the Army an opportunity to review various solutions from industry and then select a production-ready system that demonstrates increases in range, rate of fire, and mobility over current artillery systems available to Stryker Brigade Combat Teams (SBCTs).

Elbit Systems of America is a market leader in providing artillery solutions and is confident its system will perform well at the shoot-off, being evaluated as "ready now." ATMOS Iron Sabre is a proven, fielded system from a family of howitzers that have supported international customers for more than 30 years. Compatible with all existing US projectiles and propellant charges, it fulfills the Army's mobile howitzer needs immediately, delivering on the modernization and capability improvements defined by Army Futures Command Long Range Precision Fires objective.

"US Army Fires needs solutions that can keep up with the SBCT, can shoot faster and farther, and most importantly are low risk and ready now. Elbit Systems of America's ATMOS Iron Sabre addresses all of these needs," said Ridge Sower, Vice President of Ground Combat & Precision Targeting at the company. "We are pleased to be selected for this evaluation and stand ready for rapid delivery from our hot production line if selected for production and fielding."

### Forward Looking Statement

This press release may contain forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the Israeli Securities Law, 1968) regarding Elbit Systems Ltd. and/or its subsidiaries (collectively the Company), to the extent such statements do not relate to historical or current facts. Forward-looking statements are based on management's current expectations, estimates, projections and assumptions about future events. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions about the Company, which are difficult to predict, including projections of the Company's future financial results, its anticipated growth strategies and anticipated trends in its business. Therefore, actual future results, performance and trends may differ materially from these forward-looking statements due to a variety of factors, including, without limitation: scope and length of customer contracts; governmental regulations and approvals; changes in governmental budgeting priorities; general market, political and economic conditions in the countries in which the Company operates or sells, including Israel and the United States among others; changes in global health and macro-economic conditions; differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts; changes in the competitive environment; and the outcome of legal and/or regulatory proceedings. The factors listed above are not all-inclusive, and further information is contained in Elbit Systems Ltd.'s latest annual report on Form 20-F, which is on file with the U.S. Securities and Exchange Commission. All forward-looking statements speak only as of the date of this release. Although the Company believes the expectations reflected in the forward-looking statements contained herein are reasonable, it cannot guarantee future results, level of activity, performance or achievements. Moreover, neither the Company nor any
